## Chivas

### Beautiful interior signs and installation

Stunning interior built up signs with the Chivas logo, created in built up gloss gold finish to add a premium finish to the clients logos. This stunning finish reflects the brands premium feel and the desire of the brand to reflect its importance on quality and taste, Brushed steel fret cut text for the bar area to add a casual but industrial feel to the space. 3D lettering, made and installed into the clients space, by BFG were conceived and designed to the clients breif and installed to the highest standard and built to last.

CHIVAS

## Backlit and built up signage

Beautiful finish and expert installation

In these slides we have installed signs painted in Corden steel rust paint effect, built up Halo lit letters to create the ultimate impact during the day and night when the sign is illuminated. From concept logo, we set the signs up for manufacture for our client, supplying our client first with the final setting out for approval and sample, then leading to manufacture and also technical advice and expert installation on site after site surveys.

## Exterior Wayfinding signs and branding

### Signage and Hoardings

We feel that our clients brand is essential and these exterior signs and hoardings can add interest to a building or space, stamping identity to a building and enhancing the clients brand. These stunning signs were created for our clients and add interest and great advertising opportunities for brands and companies.. Quality signs and installation

## Public space branding/Way-finding

Specialised Vinyl and signage onto walls, glazing and floors

In this slide you can see fret cut Di bond signage for wayfinding, These are subtle, but effective signs, giving a premium feel and information to the public. Vinyl graphic logos and branding onto the escalators to add interest and branding opportunities to shops and companies within the space.

## Eco Friendly signage

### Beautiful and planet friendly signs

Signage and wayfinding for spaces, retail, public spaces, events, exhibitions, can still be planet friendly. These signs were set up and conceived by BFG for our clients, templates supplied to our client made artwork set up easy to do and quick to design. These stunning signs do a great job and are re-usable, but once their life has ended, they can be recycled with ease. Made and installed into the clients space, by BFG conceived and designed to the clients brief and installed to the highest standard.
